A-Tag™ Pavement Marker

Fact Sheet

Part# NCT, RFT

*Shown to-size

New Construction

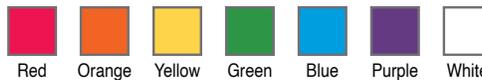

Retrofit

Brightly colored, highly visible low-profile utility marker. Can be directly installed into asphalt or concrete and they are slightly recessed, so even snowplows will not destroy them. They can be used for a variety of applications including patch identification and identifying buried valves and utilities.

Description:

- Retrofit or New Construction tags available
- UV Stable
- Warning message or legend molded directly into the tag
- Impact Resistant
- 1.5" diameter
- 0.68" height – Retrofit | 0.75" height – New Construction
- Can be customized to include a company name, phone number or unique message; contact us for details.
