

Utility Marking Flags

Fact Sheet

From utility construction, line locating, forestry, landscaping, and pet containment – our solid color marking flags ensure consistent, low-cost communication and long lasting visibility for your project.

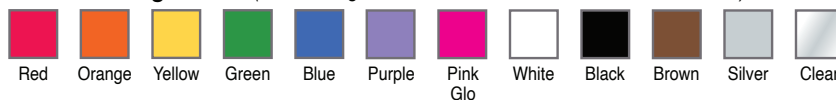

We offer custom-printed options that allow the inclusion of a logo or specific message directly on the flag. Such customization helps reinforce brand presence on-site and can provide precise instructions or warnings, further tailoring the marking solution to the exact requirements desired.

Manufactured from robust materials, our flags are designed to withstand the elements and remain visible for years. The wire staff has high-bend resistance, while the vibrant color of the flag maintains its brightness even with prolonged exposure to sunlight and adverse weather conditions.

DESCRIPTION:

- Legends available: Generic | Custom | Blank (no legend)
- Flag sizes: 2" x 3" | 4" x 5"
- Flag material: PVC
- Flag thickness: 3.5mil ± .2mil
