

Repulpable Barricade Tape

Spec Sheet

Part# SRP2135

Similar to our Biodegradable Barricade Tape, Repulpable Barricade Tape offers you a 'greener' alternative. This sturdy compostable tape is made from 100% cotton fiber and is ideal for areas that prohibit plastics, or temporary applications in forested/wooded areas where barricade tape is most likely to be left behind.

DESCRIPTION:

- Standard Roll Widths: 2" | 3"
- Standard Roll Length: 135'
- Construction: 100% cotton fiber
- Standard Colors: Red | Yellow
- Standard Ink Color: Black
- Material Thickness: 10 mil
- Standard Legends: CAUTION | DANGER

SAMPLE SPECIFICATION:

Trident's Repulpable Barricade Tape shall be used in applications requiring a biodegradable/compostable alternative to plastic-polymer based tapes. Legends shall be black on yellow "CAUTION" or black on red "DANGER" according to the severity of the hazard. Legend shall be bold-black lettering and easy to read at a distance. Tape shall be manufactured by Trident Solutions or an industry approved equivalent.
